

Milan Pinto da Silva

Full Stack Developer · Economic Science

milanpinto1202@gmail.com · +32 468 05 79 78 · Antwerpen, België · [linkedin/milanpintodasilva](#) · [github/vaxantis](#)

PROFESSIONAL SUMMARY

Versatile professional combining a rigorous economics background with hands-on full-stack engineering experience. Skilled at translating complex business problems into scalable technical solutions — from building production APIs and React applications to conducting financial analysis and market research. Passionate about clean code, intuitive interfaces, and experiences that feel genuinely alive.

TECHNICAL SKILLS

Languages	JavaScript / TypeScript	Python	SQL				
Frontend	React	Next.js	HTML5	CSS3	Tailwind CSS	Framer Motion	Three.js
Backend	Node.js	Express.js	REST APIs	GraphQL	Prisma		
Databases	PostgreSQL	MongoDB	Redis	Supabase			
DevOps	Git	Docker	CI/CD	AWS	GCP	Vercel	GitHub Actions
Analytics	Excel / Google Sheets	Power BI	Tableau	pandas	numpy		

BUSINESS & ECONOMIC SKILLS

Economics	Micro & Macroeconomics	Econometrics	Game Theory
Finance	Financial Modeling	Valuation	Bloomberg Terminal
Research	Market Research	Competitive Analysis	Statistical Analysis (R / Python)
Management	Agile / Scrum	Project Management	

WORK EXPERIENCE

Founder & CEO

Devnest LLC · Antwerp, Belgium

Mar 2026 – Present

- Led the re-architecture of the core product dashboard from Vue 2 to Next.js 14, reducing initial load time by 60% and achieving 98 Lighthouse scores.
- Built and maintained a custom design system used across 8 product teams, with 60+ accessible components and full dark mode support.
- Mentored 3 junior engineers and established frontend code standards, PR review processes, and CI/CD pipelines.
- Collaborated with design, product, and backend to ship 12 major features per quarter across a 2M+ user platform.

Next.js TypeScript Tailwind Python Node.js React Astro

Mar 2024 – Jan 2026

Chief Technology Officer

RankBlox LLC · United States (remote)

- Developed the entire frontend and backend for the new documentation website.
- Created and tested a custom made discord bot to support their main bot.
